Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

General Chemistry Lab Manual

Laboratory Manual For Engineering Chemistry (For Bput)

The Laboratory Manual for General, Organic, and Biological Chemistry by Applegate, Neely, and Sakuta was authored to be the most current lab manual available for the GOB market, incorporating the most modern instrumentation and techniques. Illustrations and chemical structures were developed by the authors to conform to the most recent IUPAC conventions. A problem solving methodology is also utilized throughout the laboratory exercises. The Laboratory Manual for General, Organic, and Biological Chemistry by Applegate, Neely, and Sakuta is also designed with flexibility in mind to meet the differing lengths of GOB courses and variety of instrumentation available in GOB labs. Helpful instructor materials are also available on this companion website, including answers, solution recipes, best practices with common student issues and TA advice, sample syllabi, and a calculation sheet for the Density lab.

Laboratory Manual for Principles of General Chemistry, 11th Edition

A perfect accompaniment to any Human Biology course, Charles Welsh's Human Biology Laboratory Manual boasts 18 lab exercises aimed at educating students on how the human body works. Labs within the manual may be taught in any order, offering instructors the flexibility to cater the text to their own needs and course lengths.
